model:118-Y-S8  
 material:stainless steel  
 Product Name:Electronic Hotel Lock  
 colour:Silver/ Golden  
 Unlocking method:RF card + mechanical key  
 Certification:CE FCC ROHS  
 Door thickness:38-55mm  
 Working temperature:-20°C~50°C  
 Sensor Distance:3~5cm  
 Static Power Consumption:<4 μA  
 Dynamic Power Consumption:about 200 mA  
 Power supply:DC4AA alkaline batteries  
 With lower battery alarm  
 With mechanical keys for emergency  
 Can issue different functions cards for use.

Keyless access hotel motel RFID card door lock key backup.

Product Name	Electronic Hotel Lock
Material	Stainless steel/zinc alloy
Unlock way	RFID Card, Mechanical key
Door thickness	38-55mm
Color	Silver/ Golden
Application	Hotel/Apartment/Office
Warranty	2 year
Certification	CE FCC ROHS
Packing	1 Piece/box
Logo	Customized
Unlocking method	RF card + mechanical key
Reading card distance	3cm
Working temperature	-20°C~50°C
Sensor Distance	3~5cm
Static Power Consumption	<4 μA
Dynamic Power Consumption	About 200 mA
Battery & life time	4 battery & about 2 years Lock software
system	free with the Hotel Lock
