

Product description

Crafted from durable aluminum alloy, this sleek and modern smart lock combines cutting-edge technology with robust design to deliver unmatched convenience and protection. Equipped with a large HD screen and a built-in camera, it provides real-time visual intercom functionality—letting you monitor visitors and communicate remotely through your mobile app. The lock supports multiple access methods including fingerprint recognition, RFID card, password entry, physical key, and remote WiFi unlocking via smartphone app.

[Holesale Rfid and Fingerprint Smart Lock](#) - With its 3D semiconductor fingerprint sensor, the system ensures fast, accurate, and secure biometric authentication, while the built-in tamper alarm and wrong-password lockout features add extra layers of defense against unauthorized access.

Higher than peer quality

 **200h**
Salt mist test

 **R&D**
Independent research and development and production

 **200h**
Service life

 **72h**
high and low temperature testing

Designed for both style and security, this WiFi Smart Door Lock with Camera offers a complete

smart home solution. The lock supports up to 100 fingerprint registrations, making it ideal for families, offices, or rental properties. Powered by AA batteries, it includes a hidden emergency USB charging port for added peace of mind. With a flexible left/right handle orientation and compatibility with doors 35-80mm thick, installation is simple and adaptable.

Backed by 17 years of manufacturing expertise, rigorous testing (including 200-hour salt mist and temperature resistance), and full certification, this smart lock sets a new standard in reliability and performance - [**Smart password lock factory China**](#)

Product Parameters

Note: The left/right opening of the handle is flexible

Material	Aluminium Alloy
Size	368*68mm
