

## Product description

**Lock material is zinc alloy material**  
**Suitable for modern office or home use.**

**Unlock method:**biometric fingerprint+password+ key card+remote controller+backup keys.

**Lock type:**glass door lock

**Lock colour:**black or golden

**Production ability:**35000 pcs/30days

With fingerprint scanner

**Reading time:**less than 0.5S

**High-tech biological fingerprint technology,more security,easy identity**

**False reject rate** is lower than 0.001%

Input any number before or after right digital code,eg: input\*\*\*16852089\*\*\*,among them 16852089 is the right ones.

**Card reader:**2pcs free mifare cards.Can add at most 100pieces cards.

1 piece free remote control in package,more convenient.

With USB external power supply in case of batteries run out.

**Power supply:**6-9V

With English language voice operation system which can be widely used overseas markets.

Led display menu to show clearly the time,power,English operation steps.

### Hotel key card lock factory

Product Details	
Sensor resolution:	bright background,500dpi
Sensor damage resistance ability:	1000times of impact with 4H pencil
Starting time:	less than 1 second
Way of contrast:	1:N
False acceptance rate:	less than 1/1000000
Fingerprint register module:	creat one fingerprint module at one time
	Fingerprint will not be lost when the battery run out
Fingerprint capacity:	100pieces
Combination capacity:	10sets
Static power consumption:	less then 30 micro amp
Dynamic power consumption:	the working current is under 200mA
Control system:	disaryon dual circuit and individual control
Battery life:	open door for 6000 times.
Working voltage:	direct current 6V

Power supply mode:	battery powered
Emergency power supply:	DC 9V
Lower voltage alarm:	4.9V
Antistatic ability:	contact discgarge 8KV,air discharge 15KV
Working temperature:	-10 to 55centigrade
Workig humidity:	10-90%
Storage temperature:	-20 to 70centigrade
Combination length:	8 bits

[Hotel safe manufacturer china](#)
