

Product description

As a professional and safe lock factory, we have been designing and developing new models since 2004. The series of QR code locks is one of our most recent. It is an innovation in the world. You just need a cell phone or a printer so you can check a block or the whole system. It is the same operation as the normal hotel key card lock. It can help us solve the problems below.

Closure material: zinc alloy

Cabinet lock factory china

Lock size: 300x70mm, handle size: 136x25mm

- 1- The QR CODE code is online and changes every three minutes. You don't have to worry about it being copied.
- 2- Keys online, can be sent directly to users, it is not necessary to wait.
- 3- Online booking of hotel rooms, systematic management of separate branches
- 4- Rent and room reservation and can pay online.
- 5 - The landlord can even tear the house alone, send the key online to visitors.
- 6- Efficiently manage everyone's access rights at any time.
- 7- Collect managers and users on the phone app platform, complete communication and consideration.
- 8 - Fast information collection and response, providing better service to users
- 9- QR LOCK does not require a network, it is not necessary to connect any electric cable.
- 10- The QR LOCK app can extend many customized humanization functions for users.
- 11 - Other advantages are waiting for your exploration.
