ABOUT QC

IQC (Incoming Quality Control):

Confirming the quality of raw and processed materials, such as mechanical spring, sword iron, etc., to control the quality.

IPQC(Input Process Quality Control):

Randomly inspect the quality of locks and worker's operation methods in every process from producing to packaging.

FQC(Final Quality Control):

Confirming the quality of completed locks after all of the producing process, including outlook, mechanical parts, switches, generator, etc.

OQC(Outgoing Quality Control):

Overall quality inspection and confirmation before shipment, including packages, accessory kits, user manuals, etc., to ensure the locks to consistent customers' order.

Name:	618E
