

keyless Smart Electronic Rfid Split Hotel motel Door Lock keys backup

We are professional manufacturer in China and specializing in various of hotel locks,digital code locks,biometric lock,home safes,hotel room safe,gun cabinets,deposit safe,below ground safe etc.Welcome to visit our facility.

- 1.Two independent unlocking methods: Card and mechanical key
- 2.Jimmying resistance, fake closing alarm and low voltage alarm
- 3.Suitable for wooden door of 35~55mm thickness.
- 4.Color:golden/silver/antique brass/Red patina
- 5.With normal-open function
- 6.200 guest cards available
- 7.System logic:Anti-collision Loop
- 8.Dead Bolt in back plate
- 9.Reset function to ensure the safety of the lock.
- 10.With 6V DC Battery.
- 11.Working with alkaline battery,low consumption and long use life.
- 12.Adopting America TI core chip ensures high precision and high safety performance.

Technical Data:

- 1.Material:zinc alloy
- 2.Card Type:ATMEL Temic induction card
- 3.Starting time:<1 second
- 4.Master card capacity:2
- 5.Guest card capacity:200
- 6.Working Voltage:Direct current 6V, 4pcs alkaline batteries
- 7.Static power consumption:<4 μ A
- 8.Dynamic power consumption: around 200 mA
- 9.Working temperature:-20 to 50 centigrade

10. Working humidity: $\leq 80\%$

11. Unlocking card: sensor cards

13. door thickness: from 30~50mm

14. Unlocking record: Saving the last 1000 pcs unlocking records(including key unlocking)

15. Sensor distance: 3~5cm

16. Lock net/gross weight: 2.9~3.5 kgs/4kgs-4.5kgs

17. Battery life span: 12~16 months

18. voltage alarm: yes, less than 4.8V lock will alarm to indicate.

19. Fake closing alarm: yes

5. Smart Electronic Rfid card Split Hotel Door Lock

7. smart RFID card split hotel locks China. Intelligent sensor card hotel split locks China manufacturer. M1 card hotel separate lock factory China.

8. wholesale T57 card keyless access hotel locks China. wholesale mifare card hotel split lock China. RFID card hotel split hotel locks manufacturer China.

9. Intelligent electronic RFIF card hotel locks system made of zinc alloy material. Split type. contactless T57 or M1 card to unlock. Keyless access to open and with manual keys. DC 6V as power supply. Through card reader(encoder) to issue functions cards.
